

Public Works Announces:

Standard Specifications for Roads, Drainage, Bridges, and Other Infrastructure

2016
Edition

NOW AVAILABLE!

2016 STANDARD SPECIFICATIONS FOR ROAD, DRAINAGE, BRIDGES AND OTHER INFRASTRUCTURE
MANUAL
PUBLIC WORKS CAPITAL IMPROVEMENTS DIVISION

Public Works Department Capital Improvements Division announces the initial publication of the Lafayette Consolidated Government Standard Specifications for Road, Drainage, Bridges and Other Infrastructure 2016 Edition manual effective March 2017.

The bound manual replaces the current specifications developed for every Lafayette Consolidated Government Public Works Capital Improvements project. Prior to the manual publication specifications were developed and printed for all Public Works projects. The Lafayette Consolidated Government will realize significant savings as a result of the manual.

Manuals must be purchased by contactors, engineers, inspection and testing firms and other parties interested in bidding on Public Works projects and/or during work in LCG public right of way. Manuals are available at the Public Works Administration office located at 1515 E. University Avenue (Building A), Lafayette, LA 70502, Monday through Friday, 8 a.m. until 4 p.m. Manual cost is twenty-five (\$25) dollars per copy. Copies can be requested by mail with an additional ten (\$10) dollars per copy handling fee. Mail order forms can be obtained by calling (337) 291-8504. Purchases are by check or money order only made out to Lafayette Consolidated Government Department of Public Works. **CASH IS NOT AND WILL NOT BE ACCEPTED.** It should be noted manuals must be purchased and will not be available online.

The manual will serve as the official Public Works construction standards for projects. This is a one-time purchase until such time (anticipated 5 years) that the manual is revised to keep current with construction techniques and methods.
