

RULE IV
PAY PLAN

Section 1 General

- 1.1 The Director shall prepare a pay plan for the positions classified under the Lafayette Consolidated City Parish Government's Charter Section 4-15.
- 1.2 The pay plan shall be divided into components for purposes of better aligning pay of positions with similar education and experience qualifications with data reflecting the labor market pay rates for those qualifications.
- 1.3 The pay plan components shall consist of scales of pay ranges, each with a minimum, a midpoint and a maximum value.
- 1.4 The pay plan shall be submitted for approval of the Civil Service Board at a public hearing called for that purpose.
- 1.5 The pay plan, or amendment to it, shall become effective only after approval of the expenses of its implementation, by the Governing Authority. *(Revised 12/3/19)*
- 1.6 Revisions and changes to the pay plan and its components due to changes in labor market data are to be recommended at least annually by the Director, for the forthcoming fiscal year.
- 1.7 Hourly rates as provided in the pay plan shall be the official mode of payment.
- 1.8 Employees subject to these rules shall be paid as provided by the rules regardless of any appropriations or provisions in addition to or contrary to these rules.
- 1.9 If the budgeted amount for any pay action, resulting from an initial hire or job change and authorized under these rules, is less than the rate approved by the Director, the Appointing Authority shall have the ability to initiate the hire or job change at the lower rate and increase the employees pay to the approved rate after procuring the additional funding necessary.
 - A. Funding must be sought and approved no later than the first available fiscal year budget process after the hire or job change or no adjustments to pay under this subsection shall occur.
 - B. Any additional pay amounts authorized under this subsection shall become effective on the date of funding by the Governing Authority. Nothing in this subsection shall authorize retroactive pay to an employee. *(Revised 12/3/19)*
- 1.10 Reimbursement of job related expenses, use of an assigned vehicle, participation in a consistently administered vehicle subsidy program, or supplemental pay to public safety employees by the State of Louisiana, are not in conflict with these rules.

- 1.11 All changes in pay of classified employees shall be submitted by the Appointing Authority to the Civil Service Office, in writing, and shall not become effective unless approved by the Director. The Director shall have the authority to prohibit any change in pay that does not comply with this or any other rule adopted by the Board.

Section 2 Hiring Rates

- 2.1 Initial employment may be made at the minimum of the pay range to which the class is assigned.
- 2.2 Initial employment at above the minimum may be made at a rate determined by application of the same criteria as used to determine the pay rates of incumbents of the class, if approved by the Director, or upon his independent comparison of the education, experience and rate of pay proposed for the new hire with the qualifications and pay rates of those of the same or similar classes.
- 2.3 Reemployment within one year of layoff or reinstatement within one year of demotion to avoid layoff shall be at the same rate of pay as at the time of the layoff or demotion to avoid layoff, subject to any general increase that may have been provided since during the interval between layoff and reemployment.
(Revised 7/8/21)
 - A. Employment after termination, voluntary resignation, resignation to avoid termination, or any reason other than lay off, does not qualify for reemployment pay as provided in 2.3.
- 2.4 Return from Military Duty and restoration of employment shall be at the same rate of pay as at the time of the layoff, subject to any general increase that may have been provided during the interval between departure for duty and return to employment.
- 2.5 Temporary employment as part time, emergency, casual appointments as defined in Rule VI shall be paid at rates subject to approval of the Director after review of the qualifications of the temporary employee and those of regular employees in the same or similar classes.

Section 3 Promotion Pay Rates

- 3.1 Promotion is a change of employment from a position in one class to a different position in another, different class with a higher pay range midpoint, following certification and appointment from a Promotion List.
- 3.2 Promotion shall cause the subject employee's pay rate to increase by the percent difference between the two pay range midpoints, subject to adjustment as determined by the application of the same criteria as were used to establish pay of employees currently in the class, if approved by the Director, or his own independent comparison of education, experience and pay rates of those currently in the class with those of the employee to be promoted, subject to available

funding.

- 3.3 Following promotion, the promoted employee's pay rate must be within the respective pay range.

Section 4 Demotion Pay Rates

- 4.1 Demotion is the change in employment from a position in one class to a different position in a different class having a lower pay range midpoint.
- 4.2 Demotion shall cause the subject employee's pay rate to decrease by the percent difference between the two pay range midpoints subject to adjustment as determined by the application of the same criteria as were used to establish pay of employees already employed in the class, if approved by the Director, or his own independent comparison of education, experience and pay rates of those currently in the class with those of the demoted employee, subject to available funding.
- A. Voluntary demotion of an employee to a class held prior to a promotion, within six months of said promotion, shall cause the employee's pay to revert to its value before the promotion, plus any general increases that occurred since the promotion.
- B. Demotion to avoid lay off or due to inability to perform the essential functions of a position due to medical reasons, subject to verification by a physician, may result in the Appointing Authority assigning a reduction in pay that is less than the percent difference in the two pay range midpoints, subject to approval by the Director, following his comparison of proposed pay and qualifications of the demoted employee to pay and qualifications of others in the same or similar classes.
- C. Following demotion, the demoted employee's pay rate must fall within the respective range.

Section 5 Pay Increases

- 5.1 General Increases: A General Increase means an increase, by the same percentage of all pay rates of all employees classified under these rules, on the same date. (Revised 5/10/16)
- 5.2 Longevity Increases: Longevity Increases are increases in pay of employees classified under these rules where eligibility and / or amounts of the increase are determined by length of service.
- A. Longevity increases may not cause an employee's pay to exceed the maximum of the respective pay range, and may not be awarded to employees' whose pay rates exceed the maximum of their pay range.
- B. Longevity increases may not be applied to employees in apprentice or training pay progressions.

- C. If funds approved for Longevity Increases are inadequate to cover the application of criteria for Longevity increases consistently to all employees classified under these rules, no longevity increases shall occur.

5.3 Merit Increases

- A. Merit Increases are increases in employees' pay which may vary between employees and are based on supervisors' rankings, the relationship of the subject employee's pay to their pay range midpoints, and are subject to guidelines provided by the Civil Service Office.
- B. Merit Increases do not change pay range minimums or maximums.
- C. Merit Increases may not cause an employee's pay to exceed the pay range maximum, nor may a merit increase be awarded to an employee whose pay exceeds the respective pay range maximum.
- D. Employees with an unsatisfactory performance evaluation shall not be eligible for a Merit Increase for twelve months following the unsatisfactory evaluation.
- E. If funds approved for Merit Increases are inadequate to cover the application of guidelines provided by the Civil Service Office under section 5.3.A. consistently to all employees classified under these rules, no Merit Increases shall occur.

5.4 Internal Equity Increases

- A. Internal equity increases may be granted in situations where an employee's rate of pay is not aligned with the rates of pay of other employees in the same class based on the application of the same rating criteria that forms the basis of the inequity claim.
- B. Inequities of the following types shall be eligible for adjustment under this rule:
 - 1. The compensation of an employee is less than other employees in the same class who are equally rated based on the application of the same rating criteria that forms the basis of the inequity claim, subject to approval by the Director.
 - 2. The compensation of an employee is less than other employees in the same class who are rated lower based on the application of the same rating criteria that forms the basis of the inequity claim, subject to approval by the Director.
 - 3. The compensation of an employee is the same as other employees in the same class who are rated lower based on the application of the same rating criteria that forms the basis of the inequity claim,

subject to approval by the Director.

- C. The Appointing Authority may request that the Director limit the application of this rule to one or more specific classes in a department or division of a department.
- D. If, after considering the relevant data, the Director determines that the application of this rule would be justified, the Director, or the Director's designee, shall propose the appropriate pay action(s) to remedy the situation to the Appointing Authority.
- E. Pay increases recommended under this rule are subject to approval by the Civil Service Board and funding of the Governing Authority.
 - 1. If an individual pay increase recommended under this rule affects an employee's pay ten (10) percent or less, the Director is authorized to approve said increase without Board action. *(Added 8/27/24)*
 - 2. The Director may authorize an increase under the provision of Rule IV.5.4.E.1 only once during a fiscal year. *(Added 8/27/24)*
 - 3. The Director may not authorize an increase under the provision of Rule IV.5.4.E.1 in consecutive fiscal years. *(Added 8/27/24)*
 - 4. The Director shall inform the Board of any pay increases authorized under the provision of this Rule at the next Board meeting. *(Added 8/27/24)*
- F. Civil Service Board approval may only be sought at the request of the Administration, signifying their attestation and agreement that the proposed pay action is in the public interest.
- G. Increases proposed under this rule may not cause an employee's pay to exceed the pay range maximum, nor may an increase under this rule be awarded to an employee whose pay exceeds the respective pay range maximum.
- H. If funds approved by the Governing Authority for purposes of meeting the cost of an internal equity increase as approved under this rule are inadequate to meet all costs associated with that increase, the internal equity increase shall not occur.

5.5 External Equity Increases

- A. External equity increases may be granted in order to allow for and maintain competitive market pay rates.

- B. The Appointing Authority may request that the Director limit the application of this rule to one or more specific classes or positions in a department or division of a department.
1. The Appointing Authority shall furnish to the Director, in writing, all evidence that demonstrates that the individual pay rates in the specific class(es) or position(s) are not labor market competitive and would therefore justify application of this rule.
 2. The Director may supplement the evidence provided with any other relevant data in order to determine the appropriateness of applying this rule.
- C. If, after considering the relevant evidence and data, the Director determines that the application of this rule would be justified, the Director, or the Director's designee, shall propose the appropriate pay action(s) to remedy the situation to the Appointing Authority.
- D. Pay increases recommended under this rule are subject to approval by the Civil Service Board and funding of the Governing Authority.
1. If an individual pay increase recommended under this rule affects an employee's pay ten (10) percent or less, the Director is authorized to approve said increase without Board action. *(Added 8/27/24)*
 2. The Director may authorize an increase under the provision of Rule IV.5.5.D.1 only once during a fiscal year. *(Added 8/27/24)*
 3. The Director may not authorize an increase under the provision of Rule IV.5.5.D.1 in consecutive fiscal years. *(Added 8/27/24)*
 4. The Director shall inform the Board of any pay increases authorized under the provision of this Rule at the next Board meeting. *(Added 8/27/24)*
- E. Civil Service Board approval may only be sought at the request of the Administration, signifying their attestation and agreement that the proposed pay action is in the public interest.
- F. Increases proposed under this rule may not cause an employee's pay to exceed the pay range maximum, nor may an increase under this rule be awarded to an employee whose pay exceeds the respective pay range maximum.
- G. If funds approved by the Governing Authority for purposes of meeting the cost of an external equity increase as approved under this rule are

inadequate to meet all costs associated with that increase, the external equity increase shall not occur.

5.6 Incentive Pay

- A. The Appointing Authority may develop and propose for approval an incentive pay structure for classes specifically identified therein.
- B. It shall be the responsibility of the Appointing Authority to ensure that the incentive plan developed and proposed is in full compliance with all federal, state, and local laws and regulations.
- C. No incentive pay plan shall be implemented unless approved by the Civil Service Board.
- D. Civil Service Board approval may only be sought at the request of the Administration, signifying their attestation and agreement that the incentive pay plan is in the public interest.

5.7 Retention Increases: Retention increases are increases to the pay of employees in a class in order to retain those employees in critical, difficult to fill, and/or historically difficult to retain areas.

- A. The Appointing Authority shall request the application of retention pay to specific classes through the Administration, who shall then notify the Director of their approval that classes are critical and have been shown to be either historically difficult to fill or historically difficult to retain. Classes eligible for retention increases shall meet the following criteria:
 - 1. Critical classes shall be those classes that, by their core nature of work, are determined to provide a function to Lafayette Consolidated Government, such that curtailing those functions due to inadequate staffing would inhibit Lafayette Consolidated Government from delivering essential services to the public. It shall be the Administration's responsibility to provide justification that the class meets this criteria; and A.2 or A.3 (below);
 - 2. Classes eligible for retention increases shall be shown to have been advertised numerous times and have failed to generate a sufficient number of candidates who meet the minimum qualifications, as defined by job analysis and testing criteria, in order to fill the vacancies that exist; or
 - 3. Classes eligible for retention increases shall be shown to have experienced significant turnover of employees who leave Lafayette Consolidated Government for higher compensation in substantially similar positions in other organizations.

- B. The Appointing Authority shall provide to the Director the criteria to be used for determining individual retention adjustments for positions in each class. Such criteria shall be uniformly applied to all positions in a class to determine retention increases.
 - 4. The criteria shall be knowledge, skills, and abilities that have been shown to be of value to the relevant job market and for which Lafayette Consolidated Government derives value from retaining.
 - 5. The criteria shall not result, in practice or appearance, in a merit increase as defined by Civil Service Rule IV.5.3.
 - 6. The amount of each increase shall be determined by the Director and recommended to the Board, who shall have the discretion to accept, reject, or modify the proposed rates.
 - 7. A retention increase shall not cause an employee's pay to exceed the 75th percentile of the going market rate for the position, as reflected by valid labor market data.
 - C. If funds approved by the Governing Authority for purposes of meeting the cost of a retention increase are inadequate to enable all of the recommended retention increases within an affected class, no retention increases in the class shall occur. (*Revised 12/3/19*)
- 5.6 Effect of State Supplemental Pay: State provided supplemental pay to public safety employees will be included in the recipient employees' pay rates when calculating pay increases of any kind, but will not be included as a component of said pay rate if doing so reduces any pay or benefit Lafayette Consolidated Government would have provided had the supplement not been included.

Section 6 Apprenticeship Pay Progressions

- 6.1 Training pay progressions may be prescribed by the Board for classes or positions where employees participate in a formal, documented training program where completion is required in order for continued employment.
- 6.2 Employment may occur between the minimum of the pay range and the program completion rate as justified by qualifications. A trainee's rate of pay will progress to the program completion rate as justified by progress in training. Unsuccessful completion of training within the predefined training period shall result in demotion of the employee if a vacancy is available for which the employee is qualified, or termination of the employee.
 - A. An apprentice period may be extended by the Board for the following reasons: (*Revised 4/30/18*)
 - 1. Authorized absences occurring during the apprenticeship.

2. Failure by the Governing Authority to fund apprentice pay progressions, as described in 6.2 (above). *(Revised 12/3/19)*
 - a. Extensions granted under the provisions of 6.2.A.2 shall be effective upon approval by the Board and shall remain in effect until appropriate funding is secured or for a maximum of one calendar year from the date of approval, whichever comes first.
 - b. The Board may grant subsequent extensions, under the conditions set forth in 6.2.A.2.a (above).
- B. Employees participating in an apprenticeship program, who have not completed the program, shall not be eligible for Longevity or Merit pay.
- C. The Director shall, after consultation with the appointing authority, have the authority to make minor pay adjustments to employees of a class while administering apprentice pay progressions and upon completion of the apprenticeship programs, to preserve pay differentials related to seniority, qualifications, or merit, subject to funding by the Governing Authority. *(Revised 12/3/19)*

Section 7 Reallocation of Position

- 7.1 Reallocation is a change of a position from one class to another. *(Revised 7/8/21)*
- 7.2 Reallocation of an encumbered position may occur only by action of the Civil Service Board.
- 7.3 Reallocation of a vacant position may occur upon the approval of the Director.
- 7.4 Reallocation of a position to a class with a higher pay range midpoint may result in an increase in pay to be determined by application of the same criteria used in establishing the pay rates of the employees already in the class, subject to funding and the approval of the Director, or no change in pay if in the assessment of the Director no change is warranted.
 - A. Reallocation of encumbered positions that result in pay increases may occur only at quarterly meetings of the Board held for that purpose, subject to approval of the reallocation(s) by the Civil Service Board, and funding by the Governing Authority. *(Revised 12/3/19)*
 - B. If funds approved by the Governing Authority for purposes of meeting the reallocation costs are inadequate to cover the costs of all reallocations during a semi-annual consideration by the Board, no reallocations causing increased costs may occur. *(Revised 12/3/19)*
- 7.5 Reallocation of a position to a class with a lower pay range midpoint may result in a decrease in pay to be determined by application of the same criteria used in

establishing the pay rates of the employees already in the class, subject to approval of the Director.

- 7.6 Reallocation of a position to a class with the same pay range midpoint shall result in no change in the incumbent's pay.

Section 8 Reclassification

- 8.1 Reclassification is the change of an employee from one class to another, caused by assignment of duties of that different class to the employee, not through promotion, demotion, re-employment or reassignment.
- 8.2 Reclassification must be consistent with qualifications as evidenced by examination.
- 8.3 Reallocation of a position may result in reclassification of the incumbent employee or another employee of the same class and Department as the incumbent of the reallocated position, if the incumbent is found unqualified.

Section 9 Pay Range Assignment

- 9.1 A change in the pay range assignment of a class is a change from one existing pay range to another existing pay range with a different midpoint, within an existing Pay Plan. Replacement of one Pay Plan with another by the Board, or the initial assignment of a class or pay range, does not constitute a change in pay range assignment as provided in this section.
- 9.2 The pay range assignment of an encumbered class can be changed only by action of the Civil Service Board.
- 9.3 The pay range assignment of a vacant class may be changed by the Director.
- 9.4 Change in pay range assignment of a class to a range with a higher midpoint may result in an increase in pay to be determined by application of the same criteria used in establishing the pay rates of the employees already in the class, an independent comparison of education and experience of incumbents by the Director, or no change in pay, subject to approval by the Civil Service Board.
- 9.5 Change in pay range assignment of a class to a range with a lower midpoint may result in a decrease in pay to be determined by application of the same criteria used in establishing the pay rates of the employees already in the class, an independent comparison of education and experience of incumbents by the Director, or no change in pay, subject to approval by the Civil Service Board.
- 9.6 Change in pay range assignment to a range with the same midpoint shall result in no change in pay.
- 9.7 Changes in pay range assignments that result in increased pay may occur at quarterly meetings of the Civil Service Board held for that purpose, subject to

approval of the range change by the Civil Service Board and approval of funding by the City- Parish Council.

- 9.8 If funds approved by the Governing Authority for purposes of meeting the cost of a pay range assignment change are inadequate to enable all of the recommended pay changes within the affected class, the range change shall not occur. (*Revised 12/3/19*)

Section 10 Change from one Market Aligned Component to another

- 10.1 The Director shall decide the assignment of classes to components on the basis of Section 1.2 above.
- 10.2 A vacant classification may be moved from one component to another by the Director.
- 10.3 A classification containing encumbered positions may be moved from one component to another by the Civil Service Board.
- 10.4 The pay rate of an employee whose classification is changed from one component to another shall not change as a result of that action.
- A. The pay rate of the employee(s) of the newly reassigned class must fall within the new pay range.

Section 11 Pay of unclassified positions declared to be in the classified service

- 11.1 Where a previously unclassified encumbered position determined to be subject to Article 4-15 of the City Parish Charter by the Civil Service Board, and the incumbent is permitted to remain in the position, the incumbent must undergo a six month working test and have a pay rate determined by the Board based on a comparison by the Director of the incumbent's education, experience and pay with those of others in the same or similar classes.
- 11.2 If the subject employee's rate of pay is below the minimum of the new range, it shall increase to the minimum, and if above maximum, may be allowed to remain unchanged but the incumbent may not receive further increases until such time as the range encompasses his pay rate.
