

EROSION HAPPENS.

HERE'S WHAT TO KNOW.

Lafayette
CONSOLIDATED GOVERNMENT

Erosion is a naturally occurring process influenced by rainfall, soil conditions, and water flow. Understanding responsibility helps determine next steps.

LCG'S ROLE:

- ✓ *Public drainage infrastructure*
- ✓ *Major drainage channels and rights-of-way*
- ✓ *Systemwide drainage improvements*

PROPERTY OWNER RESPONSIBILITY:

- *Erosion on private property*
- *Private ditches, slopes, and yards*
- *Stabilization & maintenance on private land*

EXPERIENCING EROSION?

Contact 311 or scan QR code for more information at lafayettela.gov/erosion.

Each situation is unique. LCG can help determine whether an issue involves public drainage infrastructure.
